

PRESIDENT: The Chair recognizes Senator Landis.

SENATOR LANDIS: Thank you. Mr. Speaker and members of the Legislature, this is the last amendment on the bill that I know of and I want to thank Senator Vickers who has consolidated his questions into one and I have consolidated my amendments into one as well. They are basically clean up amendments that take care of minor changes, with one exception, the amendment is agreed to by the Fire Marshal's Office, the industry and DEC, as well as representatives of some of the farm groups. There is one additional new section. It grants injunctive relief and that is required by federal law so that the, in essence, new language of the bill, the substantive addition to the bill is the addition of injunctive relief. This is incumbent upon us if we are to be consistent with the requirements of federal law. And I would move the adoption of the amendment that appears on 1842 of the Journal.

PRESIDENT: Is there discussion? Is there discussion on the Landis amendment? If not, the motion is to adopt the amendment by Senator Landis. All those in favor vote aye, opposed vote nay. We are on Select File. Please record your vote aye or nay on the Landis amendment to LB 217. Please record your vote aye or nay. May we have your attention, please, to the motion on the floor. The Landis amendment to LB 217, aye or nay. Please record your vote. Have you all voted? Record the vote, Mr. Clerk.

CLERK: 26 ayes, 0 nays, Mr. President, on adoption of Senator Landis's amendment.

PRESIDENT: The amendment is adopted.

CLERK: Mr. President, Senator Harris would move to amend. (Senator Harris's amendment appears on page 2087 of the Legislative Journal.)

PRESIDENT: Senator Harris. May we have order in the Chamber, please, so we may hear the speaker. (Gavel.) Senator Harris.

SENATOR HARRIS: Mr. President, this is a very simple amendment. If you will look at the bill, on page 7, line 11 of the bill it asks for a daily inventory control procedure. I have been informed by folks that are in the business that a daily inventory procedure is simply not realistic and they will not be
